

# Regional Education Rounds

## Non-Atherosclerotic Causes of Myocardial Ischemia

Presented by: Dr. Mark Henderson

**CGTRE-01508-A**

Tuesday, February 9, 2016  
7:30 a.m. – 8:30 a.m. EST

### OBJECTIVES

By the end of the program, participants will be able to:

- Describe unusual causes of myocardial ischemia/infarction.
- Identify the investigations required for these atypical scenarios.

### PROGRAM DESCRIPTION

The Thunder Bay Regional Health Sciences Centre (TBRHSC), in collaboration with the Northern Ontario School of Medicine (NOSM), provides monthly Regional Education Rounds (RER). The RER are multidisciplinary, interprofessional, and intended to foster effective team care. This session will present unusual causes of myocardial ischemia/infarction and review the requirements of an investigation for atypical scenarios.

### DISTRIBUTED LEARNING

#### Face to Face:

TBRHSC: Auditorium A

#### OTN Videoconference:

OTN Location: Please specify when registering.

### DEADLINE TO REGISTER

Sunday, February 7, 2016

### PRESENTER

**Dr. Mark Henderson** is a highly respected practitioner, mentor, and educator. He was appointed Executive Vice President of Patient Services for TBRHSC and Regional Vice President for Cancer Care Ontario, Northwest Regional Cancer Program on September 4, 2012. Dr. Henderson was previously the Medical Director of the Cardiovascular and Stroke Program at TBRHSC. With 30 years clinical experience, Dr. Henderson is a leading interventional cardiologist who has served as an Associate Professor of Medicine at University of Toronto and Dalhousie medical schools and held a number of senior leadership positions in cardiac programs including: Director of Coronary Care Unit, Toronto General and Victoria General Hospital (Halifax); Director of the Cardiac Catheterization Lab, Royal Columbian Hospital (Vancouver) and Victoria General Hospital (Halifax); and Head, Department of Cardiac Services, at Royal Columbian Hospital (Vancouver).

Dr. Henderson received his medical training at King's College Medical School, University of London, U.K. He relocated to Canada in 1977 and continued his studies with the University of Toronto, completing his Internal Medical specialty at Wellesley Hospital, Toronto, in 1979. His Cardiology fellowship was completed at the Toronto General Hospital in 1982. His portfolio includes extensive cardiac research published in leading national and international medical journals.

This program meets the accreditation criteria of The College of Family Physicians of Canada and has been accredited for up to **1 Mainpro-M1 credit(s)** as approved by the Continuing Education and Professional Development Office at the Northern Ontario School of Medicine.

This event is an Accredited Group Learning Activity (**Section 1**) as defined by the Maintenance of Certification program of The Royal College of Physicians and Surgeons of Canada, approved by the Continuing Education and Professional Development Office at the Northern Ontario School of Medicine for up to **1 hour(s)**.
