

# Physiotherapists Wanted

As a permanent full time physiotherapist at the Lake of the Woods District Hospital (LWDH), you will be part of a team of nine physiotherapists working in a small community hospital in a rotating staff position. Your role will be to assess and treat in-patients and/or out-patients with cardiac, respiratory, neurological and MSK complaints. Although the LWDH is a small hospital, it has a vibrant orthopedic program and is serviced by a fully staffed comprehensive Rehab team consisting of PT, OT, SLP and support staff.

To succeed at the LWDH as part of our Rehab team, you need to be an enthusiastic and team-oriented health care provider who always puts your patient first. Our team is renowned for their exceptional patient focused care, and for doing whatever it takes to provide the person the care they require. We have a population with exceptional health care needs, and if you are an exceptional person, we want you to join us to help meet the needs of our patients.

**Breathe - Relax - Work in Sunset Country ... where lake life meets clinical excellence!**
