

Interactivity with Webex

Use Webex Features to Enhance Your
Presentations

Share Content

Press the Share button to share your screen, an application, or files.

[Click here for instructions on sharing content.](#)

Chat Panel

Encourage participation in the chat panel. Attendees can ask questions, engage with one another, and raise their hand to signal that they want to speak.

Breakout Sessions

Attendees can share and collaborate in smaller discussion groups. [Click here for instructions on using Breakout Sessions.](#)

Whiteboard

Work from a blank whiteboard or upload documents to annotate them. Share and collaborate with the audience. [Click here for instructions on using the whiteboard.](#)

Multimedia Viewer

Share video or audio by pressing share then Multimedia. Enter the URL for the content you want to share and select OK to start sharing. [Click here for instructions.](#)

Polls

Create a poll to gather feedback or ask questions. Click View > Panels > Manage Panels to add the Polling Panel. [Click here for instructions on polling in Webex.](#)

Whiteboard

For Collaboration, Interactivity, and File Sharing

Share

Click the Share Content button and select New Whiteboard.

Add

Use the Marker, Pen, Text, and Stickies Tools to add to your board.

Edit

Use the Eraser to remove annotations.

Save

Save your board to distribute later by clicking the Save button in the toolbar.

Clear

Clear the board by clicking the Eraser tool then Clear All.

Exit

Click the arrow beside the whiteboard title, then click Stop Sharing to exit the whiteboard.

Share and Annotate a File Collaboratively

To share a file and annotate it on screen, click File > Open and Share. Navigate to the location of your file, select it, and click Open.
